**Professor Judith Charlton**

Independent Chairperson of the NRSP  
Monash University Accident Research Centre (MUARC)  
Room G24, Building 70, Ground Floor  
21 Alliance Lane  
Clayton Campus

Dear Professor Charlton,

**Re: Construction Logistics and Community Safety - Australia (CLOCS-A) Memorandum of Understanding Confirmation as a Steering Group Partner**

I am delighted to confirm that Acciona is proud to apply to join the CLOCS-A Memorandum of Understanding (MoU), dated 3 February 2021, as a Steering Group (SG) Partner.

The MoU records the agreement between SG Partners to form a relationship to work together in improving road safety and the operational efficiency relating to the logistics of the construction of infrastructure projects. The SG will specifically act as a catalyst and champion to guide the establishment of CLOCS-A.

Acciona has extensive construction experience in large infrastructure projects both globally and in Australia. Projects include Road, Rail, Marine, Solar, Wind, Hydro and Tunnelling projects. Lessons learnt from these projects in the planning, and which provide the opportunity to leverage delivery of future projects.

Acciona are currently working on large infrastructure projects in urban environments that have a number of community and other vulnerable road users that could be impacted during the life of the project. We are continually working with our clients, contractors, and suppliers to develop transport plans that proactively manage and minimise impacts and deliver projects safely.

Some of the current projects Acciona are constructing Include:

- WestConnex 3A – M4-M5 Link
- Sydney Metro West Central Tunnelling Package
- Western Sydney Airport - Bulk Earthworks Project
- Western Sydney Airport Airside Civil & Pavements

As a Steering Group Partner of CLOCS-A we would commit to actively contributing to the development of CLOCS-A through our industry experience by actively promoting initiatives with clients and industry partners. We commit to trailing new initiatives on our projects and leading by example within the industry by advocating the adoption of CLOCS-A across the industry.

In line with the MoU, Acciona agrees to enter into the MoU in good faith and will actively support and participate in CLOCS-A activities. We nominate Matthew Moon (Acciona Central Health and Safety Manager) (0419 270 898) or [matthew.moon@acciona.com.au](mailto:matthew.moon@acciona.com.au) as our CLOCS-A contact.

Yours sincerely,

Gavin Reymond  
Executive Regional Manager - Central  
(Email: [Gavin.Reymond@acciona.com](mailto:Gavin.Reymond@acciona.com))
