Dear Prof. Charlton,

Re: Construction Logistics and Community Safety - Australia (CLOCS-A) Memorandum of Understanding Confirmation as a Supporting Partner

I am delighted to confirm that Veyor Digital Pty Ltd ("Veyor") is proud to apply to join the CLOCS-A Memorandum of Understanding (MoU) [Finalised Version dated 3rd February 2021](#) as a Supporting Partner (SP).

The MoU records the agreement between the Steering Group Partners (the Parties) and the SPs to form a relationship to work together in improving road safety and the operational efficiency relating to the logistics of the construction of infrastructure projects. The MoU will act as a catalyst for CLOCS-A Parties and SPs to champion and guide the establishment of CLOCS-A.

- Veyor is a digital construction logistics solution that is looking to improve operational efficiencies and safety within the construction industry.
- We are interested in understanding and being able to support the safety within the construction and logistics industries.

As a SP of CLOCS-A, we commit to support the committee, provide data (where permitted by clients) on real life application of the CLOCS-A standards, provide feedback from our day to day experiences in the field and provide insights on how technology could be used to assist.

In line with the MoU, Veyor Digital Pty Ltd agrees to enter into the MoU in good faith and will actively support and participate in CLOCS-A activities. We nominate Stephen Rockett as our CLOCS-A contact.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Stephen Rockett", written over a horizontal line.
