

Thinking About CLOCS-A Accreditation?

What is CLOCS-A?

Construction Logistics and Community Safety – Australia (CLOCS-A) is Australia's national good-practice approach, transforming how our industry manages the risks and impacts of construction-related transport.

Start your CLOCS-A
journey today

Why Accreditation Matters

Why CLOCS-A Accreditation?

- Demonstrates your commitment to safety,
- Strengthens your ability to win work on major projects,
- Improves consistency across your fleet and subcontractors,
- Reduces risk on roads and construction sites.

Discover the benefits
of CLOCS-A Accreditation

Transport Operators

Step 1: Understand the Standard

Know what's expected

- Compliance to heavy vehicle road rules and law,
- Heavy vehicle safety,
- Driver competence,
- Vulnerable Road User training,
- Reporting of heavy vehicle incidents and corrective actions.

Review the standard and get familiar with the requirements

Contractors

Step 1: Understand the Standard

Know what's expected

- Risk assessments,
- Route assessment and journey planning,
- Construction Management Logistics Plans (LMPs),
- Traffic Management Plans (TMPs),
- Planned measures,
- Report on transport incidents and corrective actions.

Review the standard and get familiar with the requirements

Transport Operators

Step 2: Review your practices and operation

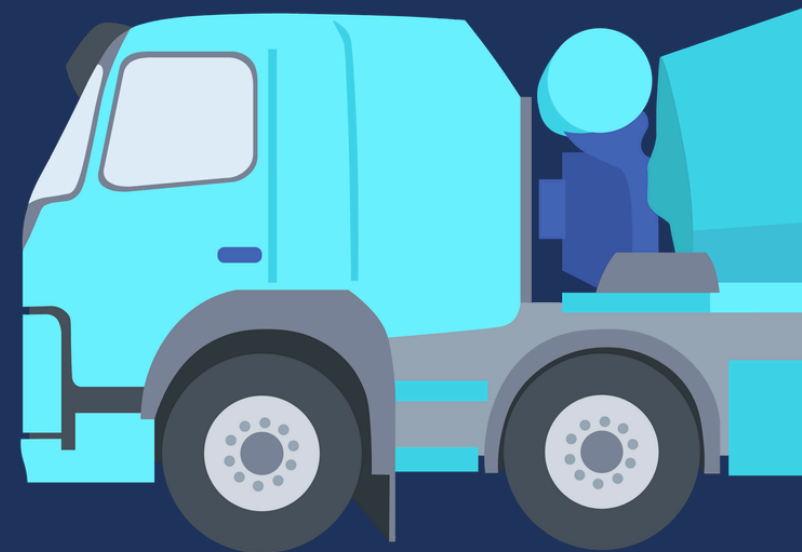

Identify what needs improvement

Compare your current practices and systems with CLOCS-A expectations.

Common gaps may include:

- Vehicle safety features,
- Driver alignment with safety practices,
- Training records,
- Incident reporting,
- Risk management.

Identify your gaps and opportunities

Step 4: Prepare Your Evidence

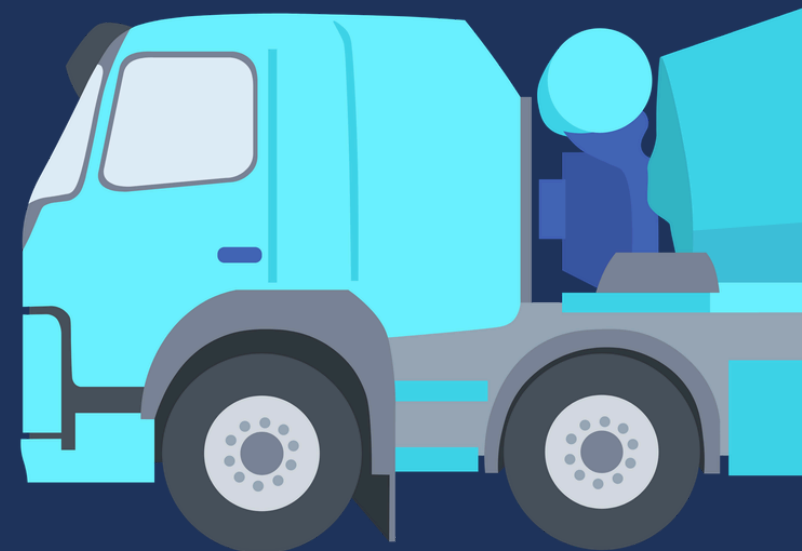

Demonstrate your compliance

Gather evidence to prove compliance with:

- Training records,
- Vehicle specs,
- Maintenance logs,
- Safety Management Systems and documentation,
- Incident report.

Clear evidence speeds up the audit.

Step 5: Create & Submit Your Application

You're ready to apply.

Create your organisation profile, nominate your depots or sites, complete self-assessment and submit evidence through the CLOCS-A accreditation portal.

Well-organised documents help auditors verify compliance quickly and efficiently.

Submit with confidence

Audit & Verification

Demonstrate your safety practices in action

- Auditors review evidence and visit your depot or construction site,
- Address corrective actions promptly to minimise costs and keep your accreditation on track.

This confirms your fleet or construction site meets the CLOCS-A standard in practice.

Prepare your team for audit
